Scripter

SKILLFUL

My dad is very skillful, he's always fixing everything

He can fix the sink in the kitchen

He can also repair a faucet that is leaking

Even if the roof is leaking he can fix that too

My big brother can't do the things my dad does

He, my father, belongs to an older generation:

The "do-it-yourself" generation

I can fix my flat bike too.

That isn't hard to do
