I JUST HATE THEM

What's the animal you dislike most?

I don't dislike it, I just hate them: snakes

What do you hate about them?

Everything: they crawl, they stick out their tongues, they make this "sssss" sound...

You're right. Besides, they're dangerous and poisonous

I wonder why they always stick out their tongues

Easy, because that's how they smell

No kidding! But still, they're hateful

Well, I don't hate them, but I don't love them either
