GIVING A STAMENT

Yes, officer, I saw what happened

First of all, I saw three men fleeing the place

Two of them were running while the other one was aiming at someone

After that, the three of them got into a car

They drove away while some people were coming out of the store

I was standing right here when those people started screaming

I was calling 911 when the first patrol cars arrived

After that everything started to calm down

And that's all officer
