## AROUND THE CITY

We went around the city

We started our tour right in the Public Library

We continued to the north for a few blocks and found the Planetarium

We stayed there for a while

Then on our left, four blocks ahead, biggest university in our city

That's the one I want to go to someday

We had to take a short cab ride to get to the zoo

It was fantastic. There were lots of animals

At that moment we were tired, so we looked for a mall to rest

It was behind the zoo
