## MAKES NO SENSE

Languages are strange!

Why do you say that?

Well, to start with let's talk about this

About what?

If "a" is for singular and "few" is for plural, why do you say "a few"?

You're right. I hadn't thought about that.

Now, if the plural of "man" is "men" why isn't the plural of "pan" "pen"?

You're right again.

What about this one: if "uni" comes from one, then why does "unisex" mean "for both sexes"?

Oh, come on, I think you need a new job badly
