## PROBABILITIES

What will you do if you're admitted to both colleges?

Well, if that happens I will have to make up my mind

What are your two options?

On the first hand I can study medicine in one

And on the other hand I can study advertising in the other one

But if you choose medicine you will have to move to another city

I know, that is why I'm putting so much thought into this

Now, you will be close to your loved ones if you choose advertising

It's true. Let's wait and see. Oh, look here's the mail with the answers
