

CYCLE 27. KEYNOTE 5
Scripter

WHAT IF...

I don't see my math teacher. I need her badly

What if you run into her? What will you tell her?

If I run into her, I will tell her to give me another chance.

What if you ran into the English teacher?

If I ran into him, I would tell him that he was the best teacher I had this year

And what if you had run into your chemistry teacher earlier today?

If I had run into her, I would've avoided him. I didn't like his classes

But you know? I did like them. Now, what if....

Stop it! No more what ifs! You're getting on my nerves
