

CYCLE 9. KEYNOTE 5
Scripter

ADVICE

In order to be a good student there are some rules you have to follow

You should be on time. Being late is unacceptable

You'd better study after class

This is how you reinforce what you saw in class

You ought to do your homework and some extra work

Don't think that just coming to class is enough

You should also avoid wasting your time

Watching too much TV or chatting with your friends won't help you much

Finally, you should remember that having a good attitude is also very important
