## MANNERS

When you're in public there are some rules to follow

First, you shouldn't ever pick your nose

At the table, you should wait for everybody to start eating

And don't stand up unless you're excused by the host

Always say hello when you arrive at a place

And say goodbye when you leave

Also, avoid screaming in public

In class, you shouldn't talk to your friends

And never use your blackberry in class. It's rude and annoying
