

CYCLE 9. Sunrise 5
Scripter

THE WAY IT USED TO BE

After many years I went back to my hometown

Everything was different

There used to be a big shopping mall on this street

Now there is a baseball stadium

People in town used to eat dinner in a Chinese restaurant

But there is no Chinese restaurant anymore

I remember attending a small school

But it was demolished to build a public library

I used to have a lot of school friends

They all moved out of town
